[How to Choose and Install a Motion Sensor Light The ...](#)

An outdoor motion sensor light allows you to operate the light in the conventional, manual way, usually by flipping the motion sensor light switch off for a second, then back on. This allows you to keep the motion lights on at night when you want to, even when there's no motion. By double flipping a second time, you return to automatic motion sensing lighting.

[lighting - How can I override a motion detector light ...](#)

The motion detector monitors ambient light (daylight) and then activates when it's dark enough, and motion is detected. If you turn the switch off and on within a second or so, the light will stay on, and this overrides motion detection.
