[About primary health care - Canada.ca](#)

Primary care is the element within primary health care that focusses on health care services, including health promotion, illness and injury prevention, and the diagnosis and treatment of illness and injury.

[Primary Health Care - bienvenue | CNA AHC](#)

Primary health care (PHC) is a principle-based, comprehensive approach. It focuses on the way services are delivered, from birth to death, across the continuum of care in all settings. It's about creating the conditions that improve the health of all Canadians and putting the people who receive health services at the centre of care.

[Spirometry in primary care - cts-sct.ca](#)

Primary care physicians and nurse practitioners who interpret spirometry should have completed a spirometry interpretation course or specific training in spirometry interpretation.
