[Occupational health & safety management systems - WorkSafeBC](#)

Occupational health & safety management systems An occupational health and safety (OHS) management system encompasses more than just your health and safety program. It includes health and safety policies, systems, standards, and records, and involves incorporating your health and safety activities and program into your other business processes.

What are occupational safety and health management systems ...

The OHSAS 18001 management systems, although explicitly addressing both occupational health and safety, are, in practice, focused more on safety than on health. However, there is a move for OSH MS to address occupational health issues using comprehensive and systematic approaches.
