What is a Split Air Conditioner System? - Network  
What is a Split Air Conditioner System? A split air conditioner consists of two main parts: the outdoor unit and the indoor unit. The outdoor unit is installed on or near the wall outside of the room or space that you wish to cool. The unit houses the compressor, condenser coil and the expansion coil or capillary tubing. The sleek-looking indoor unit contains the cooling coil, a long blower  
Split System Air Conditioners | The Good Guys  
Shop Split System Air Conditioners online at The Good Guys. With a large selection of brands and daily deals, selecting the right one is easy. With a large selection of brands and daily deals, selecting the right one is easy.  
What is a Split Air Conditioner? Split vs Packaged AC Units

The easiest way to tell if you have a split air conditioning system is to see if you have two parts to your air conditioner. If you have one part inside, either in the attic or in a closet, then you have a split AC unit. If your air conditioner has only one piece (that is typically on the roof), and a piece of ductwork going into the roof, then you have a packaged unit.
